

Bulldog Protective Coatings International

- 7 years experience
- Spraying trucks every day in our own shop – over 120 a month
- Family owned and operated

Bulldog Protective Coatings International' Spray Equipment/Chemical

- Top Name Equipment – delivers consistent pressure, allowing an even texture spray which is aesthetically pleasing to the eye giving you a factory finish look.
- Gun is triggered controlled (air purge) - allowing you the capability to stop and start if need be.
- Versatility allowing you the capability to spray both foam and polyurethane/polyureausing the same equipment
- Advanced formulation to spray both vertical and even inverted surfaces to any thickness without drips or runs.
- Allowing you the capability to spray rocker panels, decks, bedliners, nerf bars, tidy tanks, trailer fronts, stock trailers etc.

Immediate Profitability

We have a finance program that can help your bottom line within a month! Financing is optional, but it can be helpful to demonstrate how quickly you can be in the black ...

Net Revenue per Vehicle

Typical retail value of a Sprayed in Bed Liner	\$450.00
Material and Labor \$2.45lb material x 45lbs.	\$160.00 Material/Masking
Gross Profit	\$290.00

Net Revenue per Month (assume 22 days in a month x \$450.00)

1 truck per day	\$9,900 per month
2 trucks per day	\$19,800 per month

Even with a short 24-month term, you can immediately help your bottom line:

Total Investment	\$32,500
24 month term	\$1,306
36 month term	\$928
48 month term	\$742
60 month term	\$620
End of term purchase option	\$1.00

All costs are in US dollars.

Estimated payment options offered through KMC Financial www.kmcfinancial.com (OAC).
